### **Claim Objections**

Claims 1-20 are objected to because of the following reasons. In claim 1, line 2, "ionisable" is misspelled. Similar situations appear in claim 1, lines 4-5. Appropriate correction is required.

### **Allowable Subject Matter**

Claims are objected but would be allowable since prior art of record does not teach the claimed electron or ion shield fitted to and covering a sputtering portion of a tip of electrode in combination with other features of claim.

This application is in condition for allowance except for the above matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

### **Other Prior Art Cited**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Johnson, in US 3778662, discloses fluorescent lamp radiating ionic radiation
